

Brief drive mapping instructions for IST2300:

Use the Tools-Map Network Drive menu from Windows Explorer:

S: drive:

\\infodepot\classes\CIS\David Joyner\IST2300.03\All Class

↑

(be sure to put a space here!)

Remember to check the “Reconnect at Logon” box!!!!

R: drive:

\\infodepot\classes\cis\David Joyner\IST2300.03\Joyner, David

↑

(your name, not mine!)

Remember to check the “Reconnect at Logon” box!!!!

Remember to use your own name in the format Last Name, comma, space, First Name. It matters!

Note: If you are in Zero Hour, you should use IST2300.03 as in the example above. If you are in First Period, use IST2300.04 instead. You can always map a drive (not R or S) to:

\\infodepot\classes\cis\David Joyner

and then look in Windows Explorer to see how your name is set up and whether you are in section 03 or 04.
